

Insulated Concrete

MonoKast Precast Walls

Water-Tight • Energy Efficient • Ready-To-Finish

Homeowners enjoy lower energy bills with basements built with MonoKast Insulated Walls

- 2 inch EPS* (Type VIII)
- Wall Option 1: R-8 EPS* Installed Wall
- Wall Option 2: R-14 EPS* + 1¹/₂ inch ECO Cell Installed Wall

For optimum comfort and efficiency, these well insulated panels reduce heat loss in the Winter and keep cool air in, during the Summer.

* Expanded Polystyrene

Homeowners and builders appreciate these green, sustainable and durable, high quality walls systems that produce beautiful interiors. These well-insulated walls are professionally installed by seasoned foundation contractors with years of experience in the concrete basement industry.
